Bio-Oil®
Body Lotion
Product Information Sheet

Version 1
Date: 01/04/2021

Product
Bio-Oil® Body Lotion (formulation reference GL/BL/001). It is also marketed under the brand names Bi-Oil® and Bioil®.

Volume
175ml / 5.9 fl.oz.

250ml / 8.5 fl.oz.

Description
A cosmetic emulsion consisting of a blend of natural and synthetic oils, plant extracts and humectants, with the addition of vitamins and antioxidants.

Purpose
Bio-Oil® Body Lotion is a specialist skincare product formulated to moisturise the skin.

Formulation
Formulation (INCI and Hybrid listings, including CAS and EINECS numbers) are provided separately.

Fragrance allergens declared in the Ingredient listing
None

Ingredient Functions
Ingredient functions are provided separately.

Safety Assessment
The product has been classified as safe for the intended use (including for use by pregnant women). A full Cosmetic Product Safety Report is provided separately.

Toxicology Assessment
Refer to the Cosmetic Product Safety Report.

Product Specifications
Refer to the Certificate of Analysis.

Certificate of Analysis
Certificate of Analysis is provided separately.

Safety Data Sheet
Safety Data Sheet is provided separately.

Shelf-life and Stability
Expiry: 36 months
PAO: 12 months
Storage: Store out of direct sunlight.

3-month accelerated stability tests, freeze-thaw tests and light stability tests are provided separately.

Microbiological Specifications
Bio-Oil® Body Lotion is tested according to a predetermined testing plan, in accordance with the International Organisation for Standardisation (ISO). As a manufacturer, we follow the Good Manufacturing Practices as described in ISO 17516 (Cosmetics – Microbiology – Microbiological Limits) and take the neccessary precautions to limit the introduction of microorgansims, as described in the ISO Directives.

Labelling Requirements
Shake before use. Apply twice daily in the morning and evening. Suitable for sensitive skin and non-comedogenic. For external use only. Do not use on broken skin. In the unlikely event of skin irritation, discontinue use. Avoid contact with eyes. If product gets into the eyes, rinse thoroughly with water. Store out of direct sunlight. Keep out of reach of children.

Claim Substantiation
Substantiations for the following claims are provided separately:

- Helps improve the appearance of dry skin (Complife 2021).
- Helps improve skin hydration and barrier function (Complife 2021).
- Rapidly absorbed without a greasy residue (Ayton Global Research 2021).
- Non-comedogenic (Complife 2021).
- Suitable for sensitive skin (Complife 2021).

Certifications
Halal/Halaal and Kosher certification is provided separately.

Brand Owner
Union-Swiss (Pty) Ltd.

Manufacturer
Union-Swiss (Pty) Ltd.
Conforming to the requirements of ISO 22716:2007 (Guidelines on Good Manufacturing Practice (GMP) for Cosmetic Products). Certificate is provided separately.

Manufacturing Process
Bio-Oil® Body Lotion raw materials and packaging materials are quarantined on receipt, sampled and tested before being released for use in production. 20 ingredients, including occlusive ingredients and emulsifiers, are combined in the main mixing tank to form the oil phase. The humectant salts and water are combined in a mixing tank to form the aqueous phase. Stirring of the oil phase is initiated in the main mixing tank and the aqueous phase is slowly transferred into the main mixer to form a water-in-oil emulsion. Once the emulsion has formed, the emulsion is mixed for a predetermined period of time. A sample of the final product is tested to ensure conformance to the bulk product specification before the batch is released and transferred into a storage tank. The bulk product is then pumped from the storage tank to a filling line where bottles are filled, capped, shrunk and placed into shippers, which are then transferred to the finished goods warehouse. The manufacturing and packaging operations are conducted in accordance with a defined process and relevant documentation is available at every stage.

Country of Origin
South Africa.

Raw Materials
Raw material ingredient specifications and other technical documentation are provided separately.

Animal Testing
Bio-Oil® Body Lotion and its constituent raw materials are manufactured in compliance with EU regulations pertaining to animal testing for cosmetic purposes, that is, in accordance with Regulation (EC) No 1223/2009 of the European Parliament and of the Council of 30 November 2009 on cosmetic products (recast).

REACH
REACH documentation (including registration numbers for applicable ingredients) is provided separately.

Packaging
The packaging is suitable for cosmetic use without migration of harmful substances or presence of impurities. Technical documentation is provided separately.
