Key features

OLED screen

Displays battery level, temperature setting and charging status during use.

Creates a range of styles

The curved outer body is engineered to support curl structure, helping you create curves.

Suitable for all hair types

Three precise heat settings (165°C, 185°C and 210°C) to suit your hair type, length and texture.

Up to 30 minutes cordless styling²

Delivers the thermal performance of a corded straightener. Fully recharges in just 70 minutes.

Charging dock

Neatly stores and charges your straightener. Placing your straightener in the dock between uses.

Style corded, for longer run time

To maximise styling time, start with your straightener fully charged and style with the cord.

Auto shut-off and Safety lock

Switches off after 10 minutes of inactivity for added peace of mind. Safety lock for immediate power off.

Ready to travel

Universal voltage and a Flight-ready feature let you travel abroad with your straightener.
